coaches... A: From the documentation: These supplements contain a certain amount of content to make it more realistic and allows you to prepare your train with a good look of the routes and show the details. They provide the visual supplements necessary to increase the realistic aspect of Train Simulator. My best guess is that is trainset is limited in realism, because trainset is free. You have a lot of train routes in the Train Simulator forum, maybe you can look at others. /* * This program is free software; you can redistribute it and/or * modify it under the terms of the GNU General Public License * as published by the Free Software Foundation; either version 2 * of the License, or (at your option) any later version. * * This program is distributed in the hope that it will be useful, * but WITHOUT ANY WARRANTY; without even the implied warranty of * MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.
