I ran into the same problem here with Infraworks 2019. However, the model also didn't fix when I deleted the index file from the .git folder. I tried like others but without success! I'm currently using Infraworks 2019 from a Mac, with a MacBook Pro (Retina, 16-inch, Early 2019) running macOS Sierra, 10.12 (also running Xcode 9 and Swift 5.1.1). If you have any ideas please let me know. I really don't know how to fix this. I don't know how I came up with this error, but I think it's because there is a bug in the project, like no index. This
