Play.com: Good Stuff 8.5/10 - "An awesome action RPG" ("Review by Ben, Oct 4, 2018) "This game brings you to a world where betrayal is not entirely understood. The character's actions and conscience in their world come into question and are reflected in the lore of the game" "The story is well crafted and has plenty to love about it, each of the three main story-lines are light-hearted and funny yet also dark and serious at times. The overarching plot is deep yet still fun to enjoy, the story leads on from the previous game and keeps the story going, but you will have to dig deep and you will be rewarded. The problem I found with the story was it had some mini-cutscenes and fairly short chapters that dragged things on a bit, it would have been good to give more attention to these areas and make them more of an important part of the story and not just fillers which seemed to take some of the enjoyment away from it." "The graphics are good, the style is good, everything blends well together. It's a pretty pretty game, which is a good thing as it does look good" "I really enjoyed the characters in this game, especially Amber, she was the character that I spent the most time with as a child and you can really get a sense of what sort of character they are playing off of" "This is a great improvement from the first game, while not a perfect improvement the developers have done a great job of using the popular games story and characters as a springboard for their own game. They have a great start with it" "It's a good game, but it could have been better with a lot less of the cutscenes that bogged down the gameplay. I also would have preferred that they go back to a version of this game that was significantly shorter, as most of the time just looking at the pictures just was not enough gameplay. Once you beat the main story and defeat all the bosses your play time will be limited to the amount of content that they have made available so you are likely to spend a lot of time just walking around, exploring and talking to NPCs to get the next piece of story content" "Although this was a gorgeous looking game, I was constantly waiting for the time when there was enough dialogue to be heard and spoken" PLAY.COM: Neutrals 7/10 - " bff6bb2d33

Appellant, of course, does not claim to have been a party to these plea agreements or to have been specifically invited by her lawyer to sign them. But because she was counseled by the district judge in open court and furnished with all the ample other information that the law requires, we think there is more than adequate basis upon which we can find the appellant waived any defects that might have existed in the ratification of the agreements upon her part, if indeed any existed. We do not have to announce any general principle, for instance to the effect that we will not sustain a plea by a party who was misled by the district court as to a central point in the case, or who was "duped" by a lawyer who neglected to inform her of a fact that, under the circumstances, such informed parties must realize is in the nature of a "most solemn assurance" by the court of its consent to a plea bargain. United States v. King, supra at 645. 16 Most of the defendants in these appeals were represented by counsel throughout the proceedings. From the files they come to us, they appear to have been amply represented and the proceedings have been fair, so far as we can tell. We are of course aware that we have just decreed that pleas of guilty will not go unreviewed in this circuit. But in the cases before us the guilty pleas were not only faithfully ratified but carefully considered with a view to fairness. 17 The judgments and district court orders are in all respects 18 Affirmed. 1 In two of the appeals the defendants pleaded guilty as he or she or it rather 2 Rule 11 was amended, effective December 1, 1983. The amended Rule 11 requires, among other things, that the court give a more thorough explanation of the charges and give specific reasons for imposing a sentence at a particular point within the
