Along with the introduction of HyperMotion Technology, FIFA 21 featured new animations for all the players, giving a new level of realism to the gameplay. In addition, players will now have more control in on-the-ball actions, more realistic ball physics and the ability to more easily interpret aerial duels from the opponent through a new interactive AI system. FIFA 21 will be released on Sept. 13 on Xbox One and PlayStation 4, with Windows editions to follow.
