Welcome to FIFA Ultimate Team. Whether you're a seasoned veteran or just getting started, these tips and tricks will help you maximize your FIFA Ultimate Team potential. FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power gameplay. But it's also important to treat this as a dynamic, living game engine. A game-changing player who's worth the investment. Henderson's consistency and ability are both outstanding, and his attacking play will be crucial to your game over the next few weeks. You can read more about Henderson's game in our team of the week article.
