**Layers panel** The Layers panel offers you a layer-based editing environment. Through this panel, you can access and apply layers as well as adjustment layers to your image. The Layers panel has two large buttons on either side, the Up Arrow and the Down Arrow. Clicking these buttons, respectively, displays an alphabetical list of all the layers in the current active image, and all the layers available in the current image. Figure 15-1. The Photoshop interface provides three large, context-sensitive windows into Photoshop's capabilities — the Photoshop Palettes, the Tools panel, and the image itself. The Layers panel can be split into two panels, with each panel representing a different mode. The left mode enables you

## What's New in the Photoshop 2021 (Version 22.4.3)?

Q: Navigate to ASP.NET website.NET framework 2.0 Please, need help. I need to navigate to aspx page by button click from site UserControl. Code example: WebBrowser wb = new WebBrowser(); wb.DocumentCompleted += new WebBrowserDocumentCompletedEventHandler(wb\_DocumentCompleted); wb.Navigate(""); private void wb\_DocumentCompleted(object sender, WebBrowserDocumentCompletedEventArgs e) { MessageBox.Show(wb.DocumentText); } I'm using.NET 2.0. Thanks for help. A: There are a couple of problems with your code. Firstly, the event handler cannot be added after you have navigated to the page you want to monitor. Secondly, from the F12 Developer Console this is not working for me. If I change the code to this: string s = "www.google.com"; WebBrowser wb = new WebBrowser(); wb.DocumentCompleted += new WebBrowserDocumentCompletedEventHandler(wb\_DocumentCompleted); wb.Navigate(s); private void wb\_DocumentCompleted(object sender, WebBrowserDocumentCompletedEventArgs e) { MessageBox.Show(wb.DocumentText); } I see the page content in a message box. However, there are two problems with this code. First, it still doesn't work when I click the button. Secondly, I don't see the browser open after I navigate to the URL. Can you work out what is going wrong? EDIT: Based on your comment - you may need to do some work in the OnClick handler of the button you are attaching the event to. Add the following code to it: wb.Navigate(s); Unless something goes really, really, really wrong, this year's IndyCar season should be a good one. IndyCar was coming off a seventh straight CART championship. It featured three reigning champions - two of which were repeat winners - and boasted a 26-driver field, including 18 returning drivers. And yet, it's one of the best and perhaps the best-entered in IndyCar history. That includes CART, where it is nearly certain that this year's IndyCar championship will
