#### AutoCAD Crack+

**AutoCAD Release History** AutoCAD releases have been named using the following naming scheme: AutoCAD major version number AutoCAD minor version number AutoCAD release date (year). Note that AutoCAD does not use a version number system. For example, AutoCAD R16 has AutoCAD version 16, AutoCAD LT R17 has AutoCAD LT version 17, and AutoCAD LT 2019 has AutoCAD LT version 2019. AutoCAD LT 2020 has the version 2020.0.0.0. AutoCAD 2017 and AutoCAD 2017.1 have versions 2017 and 2017.1. AutoCAD 2020 (2019.1) AutoCAD 2020.1 (2019.2) AutoCAD 2020.2 (2019.3) AutoCAD 2020.3 (2019.4) AutoCAD 2020.4 (2020) AutoCAD 2020.5 (2020.1) AutoCAD 2020.6 (2020.2) AutoCAD 2020.7 (2020.3) AutoCAD 2020.8 (2020.4) AutoCAD 2020.9 (2020.5) AutoCAD 2020.10 (2020.6) AutoCAD 2020.11 (2020.7) AutoCAD 2020.12 (2020.8) AutoCAD 2020.13 (2020.9) AutoCAD 2020.14 (2020.10) AutoCAD 2020.15 (2020.11) AutoCAD 2020.16 (2020.12) AutoCAD 2020.17 (2020.13) AutoCAD 2020.18 (2020.14) AutoCAD 2020.19 (2020.15) AutoCAD 2020.20 (2020.16) AutoCAD 2020.21 (2020.17) AutoCAD 2020.22 (2020.18) AutoCAD 2020.23 (2020.19) AutoCAD 2020.24 (2020.20) AutoCAD 2020.25 (2020.21) AutoCAD 2020.26 (2020.22) AutoCAD 2020.27 (2020.23) AutoCAD 2020.28 (2020.24)

#### AutoCAD With License Key [Updated]

AutoLISP Visual LISP allows users to extend AutoCAD by creating functions that can be called from AutoLISP or by running scripts in the AutoCAD environment. The most common and widely used method of coding for AutoCAD is the Visual LISP development tool. AutoCAD allows AutoLISP developers to utilize the Visual LISP editor to edit the LISP code. AutoLISP scripts can be saved as \*.dsl files. Visual LISP consists of three layers: the script layer, the parser layer and the interface layer. AutoLISP developers can interact with the parser and interface layers from the script layer. AutoLISP is the primary scripting language for AutoCAD, as of version 20, this version is the only one that is fully supported for the front and back end. AutoLISP is not limited to a single company, as it is open source and licensed under the BSD license. LISP is not required to use Visual LISP, but is recommended. AutoLISP is in constant development; most users are familiar with version 8, which introduced user-defined types. AutoCAD LISP is a specialized language used for customization. Because of this, many commands have to be written in AutoLISP to allow a user to perform more advanced customization tasks. AutoLISP provides a set of functions that are nearly identical to those of Visual LISP, but with the AutoCAD tools like Linework, the user can create code in AutoLISP that accesses Linework, blocks, and a large set of other AutoCAD commands. Because the commands used in AutoLISP are different than those of the Visual LISP editor, and because AutoLISP is a different language from Visual LISP, it can be very difficult to get the two to talk to each other. Scripting in AutoCAD requires an MS Office scripting (.DOT) dialect for support. VBA Visual Basic for Applications (VBA) is a Microsoft language used for automating and managing Microsoft Office applications. It consists of Visual Basic for Applications (VBA), and the Microsoft Visual Basic for Applications Extensibility (VBE) editor. Both of these are dynamic languages. AutoCAD supports VBA in two ways. The most common way is to create custom functions which allow users to create simple macros that automatically perform af5dca3d97
