21-02-2016, 06:25 DreamEmulator Dream Machine is a proprietary game console based on the ARM architecture, as used in smartphones, video games, and embedded applications. Dream Machine is based on the VFP (Very high-Floating-Point) version of the ARM Cortex-M3 core. Dream Machine supports the Thumb mode. The Dream Machine was announced on November 2, 2012 at 3GSM World Congress. The unit is planned to be marketed under the maker's name in June 2013. The Dream Machine's development was backed by more than twenty of the world's leading electronic companies, including AMD, Allwinner, Microchip Technology, NVIDIA, and RockChip. On February 21, 2014, Dream Computing made the Dream Machine available for preorder. As of May 2014, the Dream Machine is compatible with the Android 4.2.2 operating system and ARM Thumb-2 processors, and is compatible with Android

Java development and game development tools. At the 2014 Consumer Electronics Show, Dream Computing announced that it would open source its Dream Machine game development SDK for Android on June 2, 2014, and that the Dream Machine would be available for pre-order in June 2014. The Dream Machine was released on July 23, 2014, in Finland, and is now available for pre-order from Dream Computing's website. The Dream Machine retails for €199 and €249 for a consumer and developer unit, respectively. Dream Machine's initial software consists of more than twenty downloadable apps and games, including Blu-ray BluRay Player, Manga Reader, Memoji, MotionSmap (Kinect), QuikStream, Spotify, WorldBrain (ZEDiG), as well as games that are already available for Dream Machine, such as World Fighters, Rolemaster, and Zone of the Enders. Dream Machine users can also download third-party games via the Dream

Machine application on their Android device. Dream Machine allows custom ROM applications, and devices such as the Dream Machine Forum are available for development and distribution of custom ROMs. Dream Machine for Android users can also download Dream Machine apps. On August 28, 2014, Dream Computing announced that the Dream Machine firmware would be available for pre-order on September 9, 2014, and that it would be available in the United States on October 30, 2014. The Dream Machine is available from retailers that specialize in consumer electronics, but does not provide a price range, nor do retail stores carry
